

WARHAMMER AGE OF SIGMAR

ADVENTURE BATTLEPLAN 3 - THE TAINTED REALMGATE

Your Stormcast Eternals Sequitors have successfully claimed the Relic in the name of the God-King Sigmar. However, upon entering the Realmgate a powerful spell has caused your Sequitors to appear not in the Realm of Azyr as planned, but at the magical anomaly known as the Eightpoints.

Existing between worlds, this land of gateways was once the jewel of the Eight Realms and allowed safe passage between the realms. Long ago conquered by Archaon, the greatest of the Dark Gods' champions, it now holds a portal torn into the Realm of Chaos allowing him to move his armies to wherever he needs them.

A Gaunt Summoner of Tzeentch, a servant of Archaon, has disrupted and

frozen the Realmgate your Sequitors were travelling through bringing them to the Eightpoints. Furthermore, he has stolen the Relic and plans to destroy it. Without this relic, Sigmar's plans to save the Mortal Realms cannot happen!

The Gaunt Summoner has used his arcane powers to cause mystical illusions of himself masking his true identity. Each will need to be banished to unveil the true Gaunt Summoner.

Your Sequitors must find and banish the Gaunt Summoner, retrieve the relic and return to Sigmar.

The Fate of the Mortal Realms is in your hands...

FACTION FOCUS: GAUNT SUMMONERS OF TZEENTCH

Originating from deep within the Realm of Chaos, the Gaunt Summoners are powerful daemon sorcerers of Tzeentch. Only nine of these bizarre, faceless creatures exist at any one time, and it is a rare event to see more than one in a single location - it is a testament to their power that a single Gaunt Summoner can change the tide of battle completely.

<p>Each model can only move once per turn.</p>	<p>Check the Move characteristic on the datasheet for that model.</p>	<p>Use a range ruler to move that model up to the number of inches shown in the Move characteristic.</p>	<p>After it has moved normally, a model can make a special move called an Advance - roll a dice.</p>	<p>The score on your dice roll shows how far your model will Advance - a high roll is better!</p>	<p>Next, use your range ruler to move your model the distance that you rolled on your dice.</p>									

HOW TO FIGHT

<p>1. CHARGE AND PILE IN:</p> 	<p>2. HIT ROLLS:</p> 	<p>3. WOUND ROLLS:</p> 	<p>4. SAVING THROW:</p> 	<p>5. INFLICT DAMAGE:</p> 
<p>Unless it has advanced, a model within 3" of any enemy models may pile in.</p> <p>To pile in, move your model up to 3" towards the closest enemy model.</p> <p>A model may attack once with each of their Melee weapons. The weapons can be found on the models Warscroll.</p>	<p>Pick a weapon and roll a number of dice equal to the weapon's Attack characteristic.</p> <p>If the result of each dice is equal to or more than weapon's To Hit characteristic that attack hits. If the result is lower, that attack misses. Discard any dice that miss.</p>	<p>For each attack that has hit, roll that dice again to see if it wounds.</p> <p>If the result is equal to or higher than the weapons To Wound characteristic there is a chance the enemy might be hurt by your attack.</p>	<p>For each attack that wounds, the model being attacked will need to take an Armour Save.</p> <p>If the result is equal to or higher than the model's Armour Save characteristic the blow is deflected.</p>	<p>For each armour save that fails, place a wound token next to the model.</p> <p>Once the number of wound tokens is the same as their Wounds characteristic the model is slain and removed from the game.</p>

HOW TO SHOOT

<p>1. PICK A TARGET</p> 	<p>2. HIT ROLLS</p> 	<p>3. WOUND ROLLS</p> 	<p>4. SAVING THROWS</p> 	<p>5. INFLICT DAMAGE</p> 
<p>Unless it has advanced, a model may attack once with each of their Shooting weapons on their Warscroll. Pick a target within Range of the weapon.</p>	<p>Pick a weapon and roll a number of dice equal to the weapon's Attack characteristic.</p> <p>If the result of each dice is equal to or higher than weapon's To Hit characteristic that attack hits. If the result is lower, that attack misses. HOW TO SET UP BATTLEPLAN 3

Up to nine players can join in playing this Adventure Battleplan.

Each player will need:

1x Gaunt Summoner Token

2x Dice

5x Wound Tokens

1x First Player token
(only 1 needed per game)

1x Range Ruler

1x Eightpoints Battle Mat

1x Realmgate token
(only 1 needed per game)

1-6 Numbered tokens
(only 1 needed per game)

1x True Gaunt Summoner Card
(only 1 needed per game)

1x Illusion Card

1x Sequitor

1. Place your battlemats together to form a map. This can be in any shape or combination.
2. Once the Map has been created, place the Realmgate token at the centre of the Map.
3. Place each of the numbered counters in a different corner. The Gaunt Summoners powers spread like a spider's web, the numbered counters mark the edges of this web of magic.
4. Next, one of the players takes the True Gaunt Summoner Card and then one Illusion Card for each other player

For example, in a 4 player game, you would need 1 True Gaunt Summoner Card and 3 Illusion cards.

5. Shuffle the cards together and place a card in front of each player facedown without looking.

No players may look at these cards until instructed!

6. Each player takes a Gaunt Summoner token and writes their name on the back to know which one belongs to them. Each player will control a Gaunt Summoner token until it is removed.
7. Each player then rolls a dice and places their Gaunt Summoner token on the numbered counter matching the result on their dice.
8. Finally, each player places their Sequitor touching the Realmgate

HOW TO PLAY BATTLEPLAN 3

To start the game, pick one participant to be the first player and give them the First Player token. After each round of play, pass the token to the player on the right, who will then take the first turn.

Turn Sequence

This game is played in **rounds**. To complete a **round**, each player will resolve their turn with their Sequitor and then a Gaunt Summoner token. After every player has resolved their turn the next round will then start.

Chapters

This battleplan consists of 2 chapters. In the first chapter, the players will attempt to reveal the true Gaunt Summoner by banishing each illusion until he is found.

The second chapter starts when the true Gaunt Summoner has been revealed. He is now much more dangerous and must be stopped!

How to Win

To win this game, the Sequitors must banish the true Gaunt Summoner by reducing him to 0 wounds. Once he has been banished the Sequitors retrieve the relic and return to Sigmar through the now opened Realmgate.

If the Gaunt Summoner slays all the Sequitors he steals the Relic and the players lose - try again!
