

WARHAMMER PARENTS GUIDE

WHAT IS WARHAMMER?

Warhammer is the world's greatest miniatures game. People of all ages can dive into epic sci-fi and fantasy worlds with our core games, Warhammer 40,000 and Warhammer Age of Sigmar, and discover incredible new adventures. Warhammer is a hobby for life, with many of its fans enjoying it from a young age and eventually sharing it with their own children.

COLLECT

Start your collection and choose from hundreds of stunning models. Whether you want to collect robot knights the size of skyscrapers or unruly packs of football-playing goblins, there's something for everyone!

BUILD

Build your models using our easy-to-assemble kits. Young people are encouraged to think imaginatively, create, and customise their models with a range of different parts.

PAINT

Learn to paint models with Warhammer - we offer brushes, and paints of every colour. Easily access hours of our free painting tutorials online, and develop artistic skills for life.

PLAY

Stage epic battles with friends and family. Play in comfort from your kitchen table, or make friends to play against within your local community. Discover hundreds of hours of unglued play!

READ

Our worlds have many stories to tell, with books and series that appeal to both avid and more reluctant readers. There are also audiobooks, and for younger readers there is the Warhammer Adventures range.

You and your family and friends can choose which keys appeal to you. Some hobbyists often choose their favourite one or two, and others will get involved with all areas - it's entirely up to the individual.

HANDS-ON PLAY

Warhammer is an ideal hobby for all ages, as it requires some problem-solving to build, paint, and play the game, but is easy to learn and fun to master! The hobby can offer huge benefits to a young person's development.

Developing Imagination

Each of our core games offer hundreds of stunning models. With our unique narrative play mode, players are encouraged to create stories and take their armies on adventures with their friends.

Artistic Skills

Warhammer can help to develop skills for life, with players building and painting their collections from scratch.

Some local game stores even offer demonstrations. You can also find hours of free tutorials online at:

Improving Mathematics

Most Warhammer games use multiple six-sided dice to work out everything from movement to attacking. Players are often challenged to think mathematically to win. Younger children can polish their addition and subtraction, whilst older kids can practice probability.

Critical Thinking

Winning games of Warhammer requires a good strategy. What is the most important objective? Where can I move to maximise my chances of success? Questions like these are a great way to help young people practice independent critical thinking.

Social Skills

As the world's best miniatures game, Warhammer has a massive community. Your local game store can keep you up-to-date on their events, and may have some specifically aimed at younger age groups.

Reading Skills

Independent reading is critical to children's development and education. Warhammer's wide range allows young people to choose stories they love and to take a proactive approach to reading. There is also the Warhammer Adventures range to help even younger children get reading independently.

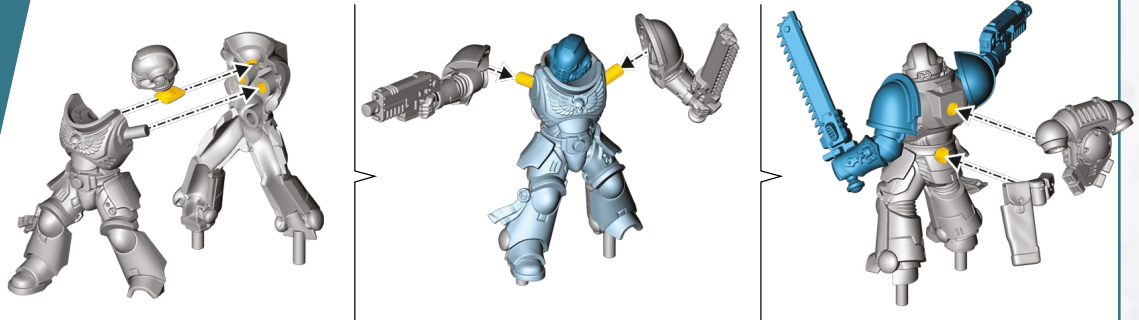

DEVELOP NEW SKILLS

With a huge range of models to build, paint, and play with, Warhammer can help young people develop their skills via hands-on, unplugged play. It's quick and easy for beginners to learn how to finish their first model - just check out the instructions below.

PUSH-FIT MODELS

Beginners can learn to build easily using our push-fit models. Young people are encouraged to follow basic instructions and work to build beautiful sets of models to use in Warhammer games.

NEXT STEPS

Warhammer also teaches more advanced model-making skills, working with clippers, glue, and interchangeable parts - allowing for unlimited customisation and creativity.

LEARN TO PAINT

Basic painting is easy! After a little bit of practice, following our free online tutorials, beginners can paint models in a way that is simple to do but looks striking on the table.

HONE YOUR SKILLS

There's plenty of Warhammer videos and articles to help everyone keep learning. There are also painting events, where participants can test their skills in friendly competition and get inspired to push themselves further.

GETTING STARTED

It's never been easier to get into Warhammer! You and your young person can read about the worlds of Warhammer and their inhabitants on our official websites. It might be helpful to do this before they decide what to collect.

BEGIN YOUR JOURNEY

Warhammer offers a choice of starter sets aimed at new players, including everything they need to play in one box.

You can ask staff in your local gaming store which starter set would be the best size to suit you.

PLAY TOGETHER

Why not learn to play with your family so that you have a fun and engaging activity to do together? Our starter boxes come with enough models to begin two armies for easy out-of-the-box play.

LEARN TO PAINT

Try our starter paint sets, which offer easy to build push-fit models, a brush, and a selection of paints.
